

Outreach and Enrollment Services

Marias Healthcare Services has certified application counselors on staff to assist in connecting people to their affordable health care options, regardless of income.

Thanks to the Affordable Care Act, those who previously couldn't afford private health insurance or who were denied based on a pre-existing condition, can now get the health coverage they deserve.

Patients are welcome to make an appointment at (406)-434-3100 or walk in to work directly with a staff member. There is no charge for this service. The counselor right here in Shelby can help you with the following:

- Assist with enrollment in:
 - The health insurance Marketplace
 - Medicaid
 - Healthy Montana Kids
- Apply for exemption to tax penalties
- Help with appealing eligibility and coverage decisions
- Report changes to the Marketplace

Did you know that moving is considered a “qualifying life event” by the health insurance Marketplace? This means that you and your family are eligible for a special enrollment period and do not have to wait until Open Enrollment to sign up for health coverage.
